

## SORT THE LAYOUT & LOOK WITH A **SPACE BOOST**

The Space Boost package is perfect for giving an existing space an upgrade.

Maybe the room already has some elements and pieces of furniture that you love and want to keep but the whole space is just not working.

I can help you sort the layout and the key style elements, shapes, colours, fabrics, etc. that will tie the whole scheme together. And at Ace Your Space we never forget the practicalities like storage and ease of use.

### **The Principles I Follow**

- Your home should reflect your personality & passions, not mine and not whatever is in fashion.
- I try to recommend products that you can buy easily (without having to go through me).
- If you say you don't like something, I won't try to persuade you.
- Style without practicality is art, not good design.

### **What is Included?**

- A list of design needs & wants
- Furniture layout suggestions, based on existing structure (no major build changes)
- Personal Style recipe: this sets out some key themes to apply to each space to create a consistent feeling that really reflects you
- Visual board of ideas, e.g. Houzz, Pinterest

*For a home as good  
as you imagined it.*

### **What Comes Next?**

The space boost gives you ideas on how to improve your space.

You can then either come back for more detail or proceed on the project without further advice.
